

CLEANING AND MAINTAINING YOUR GUTTER SYSTEM

How Often Should You Clean Gutters?

Clean gutters at minimum once a year

We recommend twice or three times a year if you have overhanging trees. Also, clean clogged gutters after big storms. Clogs often occur where downspouts join the gutter system check these areas closely.

How to Clean Gutters

- **Wear a shirt with long sleeves.** Wear rubber gloves.
- **Have a good extendable ladder available.** Standoff stabilizers are ideal to keep the ladder from damaging the gutter and your paint or stucco.
- **Use a small plastic scoop to remove gunk.** Buy a gutter scoop from the hardware store or a child's sand shovel can also be handy.
- **After you've cleared the debris, you can flush the gutters** and downspouts with a garden hose also a great way to spot any leaks.
